

Freedom Matters

The Logo: A computer **mouse pointer**. Flying with freedom. Like a Diwali rocket that celebrates and signifies the triumph of freedom.

The bold black strokes express fun, hand-made, something organic. It reflects the spirit of the FSF hand-made, homegrown, tribal/tech coding culture. The bold orange stroke **gives it energy** and movement. Everything that the FSF stands for is expressed in this logo, and is further given a deep Indian cultural resonance.

The logotype is the classic and eternal Times. Slightly expanded to 105% giving the words more emphasis. Times is deliberately chosen to express Freedom is not a fashion trend of the moment, but an eternal, classic yearning. **Freedom transcends Time**. The letters are tightly spaced, conveying a sense of urgency, immediacy, like a clarion call to action.

The combination of orange, black, and the white of the paper conveys freshness, energy, dynamism, lightness, and yet firm resolve of action. Because freedom does matter.

Freedom Matters
